IEA Bioenergy Task 39 Newsletter #52 online

The latest newsletter #52 from the IEA Bioenergy Task 39 on Transport Fuels is available at the website.

This "seasonal" issue features a lead article by Paul Sinnige and Timo Gerlagh, The Netherlands' lead representatives to the Task on "Poldering a new Climate Agreement in the Netherlands".

It also includes a summary of Task 39's first business meeting of the 2019-2021 triennium and the joint JRC-Task 39 workshop on "Biofuels Sustainability - Focus on Lifecycle Analysis," in which many representatives of the biofuels industry also participated (companies/institutions included UPM, Neste, ISCC, REG, LBST, IFPEN, ENI, and Haldor Topsoe).
