Innovation Fund Workshop

12th September 2019, Brussels

The Innovation Fund is one of the world's largest funding programmes for demonstration of innovative low-carbon technologies with the focus on Innovative low-carbon technologies and processes in energy intensive industries, including products substituting carbon intensive ones, carbon capture and utilisation (CCU), construction and operation of carbon capture and storage (CCS), innovative renewable energy generation, and energy storage.

ETIP Bioenergy, in collaboration with the ART Fuels Forum, ETIP Renewable Heating and Cooling and Bioenergy Europe, is organizing the Innovation Fund Stakeholder Workshop on Renewable Fuels and Bioenergy on the 12th of September 2019 in Brussels. The workshop has the aim to collect project ideas from the renewable fuel/biofuel and bioenergy sectors and to discuss key sector-specific issues with regard to the selection and management of projects. The one-day workshop will include presentations from DG RTD, DG Clima and will present the key issues for the 1st Innovation Fund Call.
