Potential of HTL routes for biofuel production

Five European H2020 projects and the Norwegian National Centre Bio4Fuels presented the Potential of Hydrothermal Liquefaction (HTL) routes for biofuel production.

The first joined Expert Workshop took place on the 19th November 2019 in Brussels. Almost 100 participants attended, making the workshop very successful. A number of industry speakers, as well as research speakers have given presentations, which can be found on the website.
