Bio-Based Chemicals: A 2020 Update

A new report and a webinar from IEA Bioenergy Task 42 – “Biorefining in a Circular Economy” •

Since the first issue of the IEA Bioenergy Task 42 report on bio-based chemicals in 2011, the importance of a circular economy has become evident. In the transition to a circular economy, chemicals and materials produced from biomass will play a key role. This update of the 2011 report addresses the main biobased chemicals that could potentially be co-produced with secondary energy carriers in integrated biorefinery facilities.
